

Key Takeaways

As you reflect on your role in a healthcare team environment and the lessons of this course, download this worksheet to use to dive into key takeaways for continued learning.

1. Describe the epidemiology and pathophysiology of sickle cell disease (SCD)
2. Identify diagnostic criteria and common complications of sickle cell disease
3. Evaluate current and emerging therapies for sickle cell disease
4. Apply evidence-based strategies to manage and prevent sickle cell disease complications

Reflection

What barrier(s) in my healthcare team environment currently exist on this topic?

How can I apply this information as a member of the healthcare team to improve quality of care or health outcomes?

LEARNING FROM, WITH, AND ABOUT EACH OTHER

I will share the information learned from this course with my healthcare team by:
