

Key Takeaways

As you reflect on your role in a healthcare team environment and the lessons of this course, download this worksheet to use to dive into key takeaways for continued learning.

1. Assess substance use needs by utilizing validated screening tools to recognize risk and determine appropriate interventions
2. Coordinate integrated care to address comorbidities and continuity of care
3. Implement strategies to effectively discuss substance use concerns, reduce stigma, and encourage treatment engagement
4. Evaluate behavioral health performance through quality measures such as the Behavioral health HEDIS ASF, FUA, FUI, IET, and POD measures

Reflection

What barrier(s) in my healthcare team environment currently exist on this topic?

How can I apply this information as a member of the healthcare team to improve quality of care or health outcomes?

LEARNING FROM, WITH, AND ABOUT EACH OTHER

I will share the information learned from this course with my healthcare team by:
