Building Trauma-Informed Organizations: From Principles to Practice

Education Worksheet

Key Takeaways

As you reflect on your role in a healthcare team environment and the lessons of this course, download this worksheet to use to dive into key takeaways for continued learning.

1. Define the Substance Abuse and Mental Health Services Administration's ten implementation domains for developing an organizational trauma-informed approach

2. Examine evidence-based strategies to promote awareness and implementation of a trauma-informed workplace

3. Create an action plan to incorporate recommendations from the ten implementation domains within leadership practice to support team members with more effectively caring for individuals and improving quality of care

4. Apply trauma-informed organizational principles toward more effectively caring for individuals and improving quality of care metrics within your team

Reflection

What barrier(s) in my healthcare team environment currently exist on this topic?

How can I apply this information as a member of the healthcare team to improve quality of care or health outcomes?

LEARNING FROM, WITH, AND ABOUT EACH OTHER

I will share the information learned from this course with my healthcare team by:
